Q80423 proposed
claim amendmen...

Dear Examiner Sayadian,

Thank you for calling earlier today. A draft claim amendment is attached. Claim 1 is first amended to provide antecedent basis for the light-emitting layer having a plurality of well layers. The term "gradually" is replaced with "monotonically" and the concentration gradient is further defined with respect to the well layers closest to and farthest from the substrate.

Please let me know if you have any changes. I can then propose the amendment to the applicant. Michelle is my secretary.

Regards, Abraham Rosner
